After scoring, cutting and constructing their nets, they decorated their castle by cutting turrets and stacking the shapes to make battlements!

In Science, Year 4 have been learning all about electricity and this term we will be focusing on sound.

In class, we have built circuits using bulbs, batteries and switches.

To further our learning Year 4 took a trip to the Science Museum to visit the extraordinary Wonderlab to learn more about these two topics.

At the Wonderlab, children were able to discover the world of science by learning through an interactive experience.

Children got involved in different experiments and activities which included making circuits, watching a live electricity show, going down a slide to see how friction affects speed and much more.
